Cairo, Egypt

Junior .NET Developer with hands-on experience in ASP.NET Core, Web API, and Entity Framework. Developed 20+ endpoints across multiple projects, implementing authentication, data validation, and clean architecture practices. Strong foundation in C#, OOP, and LINQ, with a good understanding of HTML, CSS, and JavaScript. Passionate about writing clean, maintainable code, continuously learning, and seeking a backend role to contribute to real-world applications and grow professionally.

Education

Bachelor's of Computer Science at Egyptian E-Learning University (EELU)

September 2021 - June 2025

Grade: 3.16 / 4.0

Internships

.NET Developer Trainee at Digital Egypt Pioneers Initiative (DEPI)

June 2025 - December 2025

- Developed RESTful APIs using ASP.NET Core and Entity Framework Core.
- Implemented CRUD operations with input validation and error handling.
- Implemented authentication and authorization using ASP.NET Identity and JWT.

Technical Skills

Backend: C# | OOP | ASP.NET Core | Web API | MVC

Databases & ORM: SQL Server | LINQ | Entity Framework

Frontend: HTML5 | CSS3 | JavaScript | Bootstrap

Core: Problem Solving | Data Structure | Algorithms | SOLID | Design Patterns

DevOps & Deployment: Git | GitHub

Programming Languages: C# | Java | JavaScript

Projects

VillaBooking API • ↗

Technologies: ASP.NET Core Web API, C#, Entity Framework Core, SQL Server, JWT

Designed and developed a RESTful backend for managing villas, reservations, and users. Implemented JWT authentication with role-based authorization to secure system endpoints. Applied Clean Architecture to improve scalability and maintainability. Added input validation and global exception handling to enhance system reliability.

My Net Worth – ERP System (DEPI) • ↗

Technologies: ASP.NET MVC, C#, Entity Framework, SQL Server

Contributed to the development of a financial management system as part of a 5-member team. Implemented Expense and Payment modules with data validation and database operations. Resolved debugging and integration issues to ensure system stability. Collaborated with team members using Git for version control and feature integration.

Certificates

Full Stack .NET Web Developer from Digital Egypt Pioneers Initiative - DEPI

December 2025 • ↗

Completed hands-on training in C#, ASP.NET Core, Web API, Entity Framework Core, SQL Server, and full-stack web development.

.NET Fundamentals from Upskilling

December 2024 • ↗

Learned core .NET concepts, C#, OOP, and fundamentals of building applications using the .NET platform.

Information Technology Specialist – Device Configuration and Management from Certiport - A Pearson VUE Business

September 2024 • ↗

Covered device configuration, OS management, basic security, troubleshooting, and IT administration fundamentals.

Cisco Certified Network Associate (CCNA 200-301) from CLS Learning Solutions

October 2023 • ↗

Covered networking fundamentals, IP addressing, routing & switching, basic network security, and troubleshooting using Cisco technologies.
